*sampled by* agrichem

*Potable Water Quality Standards*

			<u>Health Canada (2004)</u>	<u>Island Trust (2001)</u>
<i>Total Coliforms</i>	< 1	MPN/100ml	<1	<1
<i>E. coli</i>	< 1	MPN/100ml	<1	<1

< is "less than" > is "greater than"

- \* aesthetic
- \*\* maximum
- \*\*\* 20 mg/L for restricted diets
- \*\*\*\* surface water or surface influenced groundwater (drilled well) source
- secure groundwater (drilled well) source
- the presence of Total Coliform bacteria indicates surface influenced water source

This water sample meets the Health Canada guidelines for potability for all parameters tested.
